Live Music Now is a charity that has been working and campaigning since 1977 to create inclusive, measurable social impact through music. By harnessing the connective power of music and evaluating its impact, we advance musical practice and change how we understand and support underrepresented and vulnerable people in our society. Our work enhances quality of life, health and well-being and promotes equity of opportunity by recognising the creative potential of every individual.

At the core of our theory of change is the commitment to deliver social impact through music. We create that social impact through musicians, whom we consider to be our most valuable partners and our greatest asset and seek to serve the ever-increasing need from communities facing social exclusion and disadvantage.

We achieve this through three commitments:

1. Supporting the musical lives of people experiencing disadvantage and social exclusion
2. Developing and supporting the workforce of professional musicians to ensure quality of practice, addressing underrepresentation by creating inclusive pathways to viable careers, and delivering the best outcomes for the communities we serve.
3. Advocating and evidencing the transformative benefits of live music on learning, development, health, and wellbeing

We employ and train over 300 professional musicians to work with older people (many living with dementia), children and young people (CYP) facing disabling barriers, early years and families, carers and key workers supporting others.

Our work reaches over 85,000 people, in person and online, performing, collaborating on, and creating music through 1:1 and group sessions, residencies in care settings, special schools & hospitals, and concerts. Our work helps participants communicate & make social connections, develops skills, and increases confidence and resilience.

Our programmes are underpinned by research and cross-sector partnerships, across England, Wales, Northern Ireland and internationally. For more information visit [our website](#)
